REGELIO-CYCLUS IRIS

A strain of hardy, freeflowering hybrid Irises of great beauty, raised from crosses between the Regelia and Oncocyclus Irises; the flowers are strikingly veined on white, soft violet-purple or brown ground. These hybrids have proved to be very manageable in cultivation, they flower freely and when cut in bud, the flowers will develop fully in water.

ANDROMACHE, soft lilac and dark violet, large flower	\$.50 ea.	\$ 4.50 per doz.	\$25.00 per 100
ARTEMIS, violet-purple, dark violet feathered, dark violet-black bloch. One of the most vigorous	\$.50 ea.	\$ 4.50 per doz.	\$25.00 per 100
ASPORINA, long, stiff stems and perfectly shaped flowers, uniform ruby-red, F.C.C. Haarlem.....	1.50 ea.	15.00 per doz.	
CAMILLA, St. velvety violet-blue, falls narrow, on grey ground brownish-purple veined, an interesting hybrid	1.00 ea.	9.50 per doz.	50.00 per 100
CHARON, on bronzy-mahogany ground the flowers are beautifully veined with old-gold and bronze	1.50 ea.	15.00 per doz.	
EUNICE, St. pearly-grey, violet veined, falls creamy-white, veined and netted with brownish-pink	1.50 ea.	15.00 per doz.	
HOMERUS, extra fine choice variety with strong stems. The flowers are of perfect shape with long falls. On grey ground violet veined, large brown blotch	2.50 ea.		
ISOLDA, mahogany, veined old gold, extra, F.C.C. Haarlem	1.00 ea.	9.50 per doz.	50.00 per 100
LUCIA, long pointed flowers, uniform ruby-red steel-blue beard, very attractive, tall stems, A. M. Haarlem	1.00 ea.	9.50 per doz.	50.00 per 100
SIRONA, St. deep lilac, dark veins; falls on purplish white ground deep lilac brown veined. Beautiful	1.25 ea.	12.50 per doz.	
TEUCROS, pearly blue, large brown blotch, very fine	1.00 ea.	9.50 per doz.	50.00 per 100
THOR, on greyish-green ground brown netted; dwarf50 ea.	4.50 per doz.	25.00 per 100
ULYSSES, beautiful large flowers of perfect shape and silky texture; soft violet, falls bronzy shaded	2.50 ea.		
VULCANUS, purple, bronzy tinged, blue beard.....	1.00 ea.	9.50 per doz.	50.00 per 100

TERMS OF SALE

Please send payment in full with order, either by check or money order. No. COD's please.

Prices are F.O.B. Snyder, New York. All orders will be sent Express Collect unless other arrangements are provided for.

Minimum order is \$1.00. We cannot furnish smaller quantities of any item other than the smallest quantity listed. 50 of an item may be had at the 100 rate.

NUMBER 2

ABOUT THE IRIS SPECIES

The various Iris offered herein have been grown by the writer in the Buffalo region. Nature has been rough in dealing out our weather but all of them have survived. The Juno's have not always bloomed the first year, but they never fail to improve once established. Susianus should be grown very dry in the summer and mulched heavily in the winter and early spring. Handle the reticulatas as you would crocus. The regelio-cyclus are no more trouble than bearded irises. Regelias need some protection from excess water in summer but are perfectly winter hardy. Except for the Junos which do best in a heavy clay soil, normal garden soil suffices for the rest.

DUTCH IRIS

D. HARING, white lilac tinged, tall.....	.40 doz.	\$2.50 per 100
IMPERATOR, deep blue, splendid for forcing.....	.40 doz.	\$2.50 per 100
WEDGWOOD, fine early flowering variety with soft blue flowers of large size40 doz.	\$2.50 per 100
YELLOW QUEEN, golden-yellow, very tall, the best yellow Iris for forcing40 doz.	\$2.50 per 100

VARIOUS SPECIES OF BULBOUS IRIS

JUNO SECTION

BUCHARICA, flowers satiny-white and yellow, produced in the axils of the leaves, April-flowering, very fine	\$1.00 ea.	\$ 9.50 doz.
GRAEBERIANA (Juno Section). Graceful species with most distinct light cobalt blue flowers. Height 1 foot	1.00 ea.	9.50 doz.
ORCHIOIDES, deep yellow (Juno Section)	1.50 ea.	15.00 doz.
ORCHIOIDES SULPHUREA, sulphur yellow, very fine.....	1.50 ea.	12.50 doz.
SINDJARENSIS, soft blue flowers from the axils of the leaves, March. (Juno Section)	1.50 ea.	12.50 doz.
SINDPERS, light azure-blue with sea-green and orange very early, free flowering; a real gem; hybrid of Iris sindjarensis and persica	3.25 ea.	
VICARIA, white, delicate blue tinged, a very fine new robust growing species, bearing many flowers in the axils of the leaves (Juno Section)50 ea.	4.50 doz.
WARLSIND (warleyensis × sindjarensis), standards deep blue; falls yellow, edged blue	1.50 ea.	15.00 doz.
WILLMOTTIANA ALBA, snowwhite flowers in the axils of the leaves. Very rare and beautiful	1.50 ea.	12.50 doz.

RETICULATA SECTION

BAKERIANA, true. A very charming early-flowering species from the reticulata section with soft blue flowers with dark violet falls50 ea	4.50 doz	
DANFORDIAE, bright yellow flowers, resembling in form I. Reticulata, very early. February — March	1.00 ea.	9.50 doz.	
RETICULATA, dark purple-blue, first size bulbs	4 for .50	1.25 doz.	7.50 per 100
RETICULATA CANTAB, pale blue flowers with orange markings, large flowered, tall stem	4 for 1.25	3.00 doz.	20.00 per 100
RETICULATA HERCULES, deep bronzy-violet, broad rounded falls with orange crest, very distinct and fine. A. M. Haarlem, 1933	4 for .75	2.00 doz.	12.50 per 100
RETICULATA J. S. DIJT, reddish purple flowers, sweetly scented. New hybrid, raised in Holland. Very fine for growing in pots as the leaves remain short. A. M. Haarlem, 1938, early	4 for .85	2.00 doz.	12.50 per 100
RETICULATA ROYAL BLUE, beautiful dark blue. Broad falls with yellow blotch	1.50 ea.	15.00 doz.	
RETICULATA WENTWORTH, rich purple, in all respects an improvement on the ordinary I. reticulata	1.75 ea.	17.50 doz.	

REGELIA SECTION

HOOGIANA, soft levender blue, very choice, one of the best and most distinct Iris in cultivation35 ea.	\$3.00 doz.	\$20.00 per 100
HOOGIANA PURPUREA, deep purplish50 ea.	4.00 doz.	25.00 per 100
KOROLKOWI, white, grey veined, black blotch65 ea.	6.50 doz.	35.00 per 100
KOROLKOWI CONCOLOR, purple violet75 ea.	7.50 doz.	45.00 per 100
KOROLKOWI VIOLACEA, white, purple veined75 ea.	7.50 doz.	45.00 per 100
STOLONIFERA, St. light violet, broadly edged and veined brown; falls purple-brown, white veined, blue beard65 ea.	6.50 doz.	35.00 per 100
STOLONIFERA LEICHTLINI, in this variety the brown colour is much more pronounced. Both are of free growth and flower freely (Regelia-Section)...	.35 ea.	3.00 doz.	20.00 per 100

VARIOUS SPECIES

SISYRINCHIUM (maricoides), small blue flowers.....	.50 doz.	3.50 per 100
SUSIANA, grey and black, Mourning Iris (Oncocyclus)	1.50 ea.	15.00 doz.

SPECIALTY SEED ITEMS

The first of these is the genus *Primula*, and again it is the high quality seeds of Hurst and Son Ltd., that we offer. After all, it is in England that the primula has been brought to its high state of development and it is from England that the best seed is produced.

Auricula—Prize strain mixed—An *Alpine* Auricula strain75 pkt.
Auricula—Show varieties mixed—Highest type of Auricula 1.00 pkt.

POLYANTHUS—The cluster headed large flowered primula developed from the common cowslip and oxslip of England. The highly refined forms of this primula have an unlimited color range and the florets of the newer strains we offer are truly large.

Polyanthus—Fancy mixed—a good moderate priced strain50 pkt.

Polyanthus—Monarch mixed—Hurst's own largest flowered strain75 pkt.

Polyanthus—Munstead mixed—A well known mixture75 pkt.

Munstead Crimson75 pkt.

Munstead Yellow—a very large sulfur75 pkt.

Munstead Blue—The best blue so far in polyanthus 1.00 pkt.

PRIMROSE or ACAULIS PRIMULA—The early blooming low primula we associate with the first breath of spring.

Primrose—Finest mixed Hybrids—All colors in this mixture50 pkt.

Primrose—Blue flowered—Blue Acaulis are truly blue 1.00 pkt.

— ASIATICS —

	Per Pkt.
BULLESIANA HYBRIDS—Rose and Apricot50	
CASHMERIANA (12 ins.). <i>Lilac, glob- ular heads</i>50	
DENTICULATA (12 ins.). <i>Lilac, glob- ular heads</i>75	
FLORINDAE (2½ ft.). <i>Rich yellow, giant form of sikkimensis</i>75	
HELODOXA (2 ft.). <i>Golden yellow</i>50	
JAPONICA SPLENDENS. <i>Rich crimson</i> .75	
JAPONICA MIXED. <i>Red and rose shades</i>50	
LISSADELL RED HUGH. <i>Scarlet</i>50	
PULVERULENTA (2 ft.). <i>Crimson</i>50	
PULVERULENTA BARTLEY STRAIN MIXED. <i>Rose and pink shades</i> 1.00	
SIKKIMENSIS (15 ins.). <i>Yellow, sweet scented</i>50	
ANEMONE Excellent for cut flower and garden decoration.	
ST. BRICID MIXED. <i>Special strain; semi-double</i>75	

BEGONIA TUBEROUS-ROOTED (15 ins.)

Large flowers, contrasted attractively against the shining solid foliage; excellent as pot plants and for late Summer bedding.

BLACKMORE & LANGDON'S SPECIAL STRAINS

	Per Pkt.
BASKET BEGONIAS MIXED. <i>For hang- ing baskets</i>85	
DOUBLE FINEST MIXED. <i>Beautifully formed flowers</i> 1.25	
SINGLE FINEST MIXED. <i>Excellent for size and range of colour</i>85	
SINGLE EXTRA HEAVILY FRILLED, MIXED85	
BEGONIA SEMPERFLORENS (Fibrous-rooted)85	

The strains offered below are all English greenhouse grown and specially selected for habit, form of flower and colour.

PRIMULAS FOR GREENHOUSE AND CONSERVATORY—Under this heading we offer Hurst's special strains of *P. Malacoides*, *Obconica*, and *Sinensis*.

	Per Pkt.
Malacoides-Melody—Rose overlaid salmon75	
Princess Mary—A deep rose pink75	
Dawkin's Carmine Pink. <i>Glowing carmine</i>75	
Obconica—Gigantea choice mixed—A large flowered type of Obconica50	
Wyaston wonder—A rich deep crimson, best obconica so far75	
Sinensis—	
Stellata mixed—a sinensis with starlike flowers—dainty75	
Fimbriata choicest mixed—the finest mixture of all..... .75	
Fimbriata Dazzler—A Hurst origination—Orange Scarlet75	

HEMEROCALLIS

The search for good red Hemerocallis is in full swing throughout the United States. We have been in the hybridizing end of the Hemerocallis game for the past ten years and have found a few crosses which give a high percentage of plants with flowers in varying degrees of red. The hand work involved and the limited number of seeds harvested from so limited a series of crosses makes this seed rather expensive, but when you consider that some of the plants you raise from your seeds may rival varieties on the market for prices like \$10.00 and \$15.00 per plant, it is well worth the price. Seeds will be shipped after harvest in August. Packet of 10 plump viable seeds from parents which give a high percentage of red offspring—all hand pollinated.....\$1.00
